

Young House Family Services Service Philosophy

Young House Family Services, a Christian multi-service agency, was founded in 1971 as a faith project in response to the needs of troubled children and families in Southeast Iowa. The agency has been and remains committed to the prayerfully planned development of a continuum of services which are as comprehensive, flexible, and intense as necessary to appropriately minister to unmet needs.

The staff and volunteers of Young House Family Services are dedicated to creating a healing community through the utilization of their special gifts and talents. The agency's good stewardship is characterized by the prudent use of resources entrusted to it.

Based on Christian principles, agency programs demonstrate the belief in...

- the value and dignity of all persons
- family unity
- community-based services
- children as our future
